

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Wraysbury Primary School
Number of pupils in school	386
Proportion (%) of pupil premium eligible pupils	18%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2021/2022 2022/2023 2023/2024
Date this statement was published	December 2022
Date on which it will be reviewed	July 2023
Statement authorised by	Alison Fox
Pupil premium lead	Alison Brech
Governor	Ben Bristow/Imran Khan

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£92,000
Recovery premium funding allocation this academic year	£6,960 proportion to be clawed back
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£8,000
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£92,000 (approx. as awaiting clawback figure)

Part A: Pupil premium strategy plan

Statement of intent

At Wraysbury Primary School we believe that every child is unique and we strive to support each and every child and their family in the very best way that we can. Every child, regardless of their background, culture and ability deserves the opportunity to be happy, feel valued and experience success, within a caring and supportive community.

During the last two years every family in our school has experienced challenges and none more so than the children of our more vulnerable families. We will use our Pupil Premium Strategy to ensure that we are able to develop the whole child academically, socially and emotionally in order to maximise their progress and develop their self-confidence to be the very best that they can be.

At Wraysbury we have a very diverse range of learners and families and our vulnerable families will include those who currently receive support from Social Care, have previously received support from Social Care and who may be Young Carers.

Quality First Teaching and a broad and balanced curriculum is at the heart of our Strategy as this is proven to have the greatest impact on closing the gap between disadvantaged and no-disadvantaged pupils. The focus on highly quality teaching and a broad curriculum will have the intention of improving the progress of the disadvantaged pupils alongside growing and deepening the attainment of our high achieving and no-disadvantaged pupils.

Our Pupil Premium Strategy is not an add on, but is an integral part of our continuous School Improvement Plan and desire to provide a high quality education for all. It is built upon robust assessment of individual need and thus we will:

- Ensure that disadvantaged pupils are planned for (individually where possible) and challenged to achieve highly
- Ensure that intervention is identified and put in place early
- Adopt a whole school approach with shared responsibility for high outcomes across all staff, including school leaders and Governors.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
------------------	---------------------

1	Baseline and upon entry to our school assessments and observations have shown that basic skills are under-developed, particularly with disadvantaged pupils. Our full cohort who entered Reception in 2020 had 94% below the expected level in Reading, 68% below the expected level in Writing and 55% below the expected level in Maths. Of the 10 disadvantaged children all were below the expected level in all areas.
2	Data shows that as a school our cohorts on entry have poor Phonics acquisition and that the disadvantaged pupils have greater difficulties than non-disadvantaged. This impacts negatively on their Phonic Screening results and reading as a whole.
3	Internal and External assessments show that attainment of disadvantaged children is very different across different cohorts in the school. Our cohorts perform differently academically and some of the children have unique needs according to whether there are other contributing factors such as SEN needs
4	Our assessments (including Oxbury wellbeing survey), observations and discussions with pupils and families have identified social and emotional issues for many pupils, and a lack of enrichment opportunities during school closure. These challenges particularly affect disadvantaged pupils, including their attainment. Teacher referrals for support have markedly increased during the pandemic. 40 pupils (30 of whom are disadvantaged) currently require additional support with social and emotional needs
5	Reports from teachers, TAs and parents as well as observations from senior leaders has found that a large number of children's attitude to learning suffered as a result of the pandemic and learning remotely. Roughly 2/3 of the pupils who found it difficult to settle back into the school routines were from the disadvantaged group.
6	Our attendance data over the last 2 years indicates that attendance among disadvantaged pupils has been between 40-50% lower than for non-disadvantaged pupils. Our assessments and observations indicate that absenteeism is negatively impacting disadvantaged pupils' progress.
7	Discussions with parents at Parents' Evenings and as part of support meetings has shown that more parents of disadvantaged pupils have struggled to help them with their home learning compared to those of non-disadvantaged pupils.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
------------------	------------------

Improved basic skills and levels of English and Maths on entry to Reception and by the end of Reception Year	Assessments and Observations indicate significantly improved English and Maths among disadvantaged pupils
Improved Phonic Screening attainment and Phonics knowledge amongst disadvantaged pupils	Year 1 and Year 2 Phonic Screening results in 2024/2025 in line with national average and 60% of disadvantaged meet the standard
Improved Reading Writing and Maths attainment and Progress for disadvantaged pupils.	Disadvantaged pupils make progress at least in line with their peers (non-disadvantaged) and in line with National average
To sustain improved wellbeing for all pupils in our school and particularly that of disadvantaged pupils. To increase participation in extra curricular activities by disadvantaged pupils	Student surveys and Wellbeing Support Plans show improved wellbeing. Increase in the participation of extra curricular Clubs amongst disadvantaged pupils
To achieve sustained improvement in attitude to learning particularly by disadvantaged pupils. Improvement in homework completed and equipment in school	Significant increase in pupils behaviour and attitude to their learning evident from book scrutinies, pupil conferences and parent consultations
To achieve sustained improvement in attendance and punctuality for all pupils particularly disadvantaged	Overall absence rate for all pupils being no more than 5% and the attendance gap between advantaged and disadvantaged reducing by at least 3%

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £40,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Recruitment of additional staff to undertake support and cover for training in order to implement	EEF cites high quality teaching as crucial in helping to improve progress and attainment in all children, particularly disadvantaged.	1, 2

Strategy activities. In particular additional cover of ECTs		
Delegation of Pupil Premium Lead role to another member of SLT and CPD opportunities with other school. Non contact time for leader.	EEF cites high quality teaching as crucial in helping to improve progress and attainment in all children, particularly disadvantaged.	1,2
CPD and ensuring that TAs are well used to support learning	Making Best Use of Teaching Assistants EEF (educationendowmentfoundation.org.uk)	3
Implementation of DFE validated scheme for Phonics to secure stronger Phonic Teaching	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF	2
Enhancement of our English and Maths teaching and curriculum planning in line with DfE and EEF guidance. Non contact time to embed in school. CPD time	EEF English Guidance reports EEF (educationendowmentfoundation.org.uk) Maths guidance KS 1 and 2.pdf (publishing.service.gov.uk) The EEF guidance is based on a range of the best available evidence: Improving Mathematics in Key Stages 2 and 3	1, 3
Development of our Curriculum Plans in other subjects to provide a balanced curriculum and ensure progress across all areas	Guidance reports EEF (educationendowmentfoundation.org.uk)	3
Improve the quality of social and emotional (SEL) learning. SEL approaches will be embedded into routine educational practices and supported by professional development and training for staff.	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF Social and Emotional Learning.pdf(educationendowmentfoundation.org.uk)	4, 5

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 22,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional phonics sessions targeted at disadvantaged pupils who require further phonics support. Sessions take place in the school day and before/after school.	Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks: Phonics Toolkit Strand Education Endowment Foundation EEF	1, 2
Engaging with the National Tutoring Programme to provide a blend of tuition, mentoring and school-led tutoring for pupils whose education has been most impacted by the pandemic. A significant proportion of the pupils who receive tutoring will be disadvantaged, including those who are high attainers.	Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one: One to one tuition EEF (educationendowmentfoundation.org.uk) And in small groups: Small group tuition Toolkit Strand Education Endowment Foundation EEF	1, 2 3

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 30,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Whole staff training and focus on behaviour approaches with the aim of developing our school ethos and improving behaviour across school.	Both targeted interventions and universal approaches can have positive overall effects: Behaviour interventions EEF (educationendowmentfoundation.org.uk)	5, 7
Embedding principles of good practice set out in the DfE's advice.	The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence	5, 6

This will involve training and release time for staff to develop and implement new procedures and appointing appropriate staff. Employment of Child and Family Support worker		
Working with parents to support them in supporting their child's learning	Working with Parents to Support Children's Learning EEF (educationendowmentfoundation.org.uk)	5, 7
Contingency fund for acute issues.	Based on our experiences and those of similar schools to ours, we have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified.	

Total budgeted cost: £ 92,000

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year

We have analysed the performance of our school's disadvantaged pupils during the 2021/22 academic year using key stage 1 and 2 performance data, phonics check results and our own internal assessments.

Schools are not required to publish their 2022 key stage 2 results as DfE is not publishing this data. This is because statutory assessments returned for the first time since 2019, without adaptations, after disruption caused by the pandemic. This is a transitional arrangement for one year only, and DfE plans to publish key stage 2 school performance data for 2023.

DfE has shared our school's 2022 performance data with us, to help us better understand the impact of the pandemic on our pupils and how this varies between different groups of pupils. COVID-19 had a significant impact on the education system and this disruption affected schools and pupils differently, and because of this, it is more difficult to interpret why the results are as they are using the data alone.

To help us gauge the performance of our disadvantaged pupils we compared our results to those for disadvantaged and non-disadvantaged pupils at a national and regional level (although these comparisons are to be considered with caution given the caveats stated above). We also looked at these comparisons using pre-pandemic scores for 2019, in order to assess how the performance of our disadvantaged pupils has changed during this period.

Our assessments show that Phonics screening attainment was still below our expectations, which is why we have continued to invest in Little Wandle Letters and Sounds Revised programme, Teachers and TAs have undertaken training and will continue to do so throughout this academic year.

We have purchased Numberstacks, a maths intervention which will be used in the Breakfast club/Booster groups. Spelling shed has also been purchased to enhance the teaching of spelling.

We have purchased Numbots and Times table Rockstars to promote Maths across the school. We have started Numbots and Timestable Rockstar cafes before school which parents and their children attend.

Data from tests and assessments suggest that, despite some strong individual performances, the attainment of the school's disadvantaged pupils in 2021/22 was below our expectations. We have currently set up a Breakfast and Booster club for KS1 disadvantaged pupils.

Absence among disadvantaged pupils was 3% higher than their peers in 2021/22. We recognise this gap is still too large which is why raising the attendance of our disadvantaged pupils but also our non-disadvantage is a focus of our current plan. There is an action plan in place, procedures and protocols have been revised and the

Child and Family Support worker and Office Manager are instrumental in auctioning the plan to improve attendance and punctuality.

Our observations and assessments demonstrated that pupil behaviour and attitudes improved last year, but challenges in relation to wellbeing and mental health remain significantly higher than before the pandemic. The impact on disadvantaged pupils has been particularly acute.

We have reviewed our strategy plan and made changes to how we intend to use some of our budget this academic year, as set out in the Activity in This Academic Year section above. The section below provides more details about the impact of our strategy so far.

Desired Outcomes	Impact so far (Dec 2022)
<p>Improved basic skills and levels of English and Maths from entry to Reception and to the end of Reception Year</p> <p><i>Assessments and Observations indicate significantly improved English and Maths among disadvantaged pupils</i></p>	<p>Summer 2022 Daily interventions in continuous provision and booster groups before school led to good pupil outcomes.</p> <p>Writing - 100% disadvantaged pupils made 6 or more steps of progress. 40% Expected attainment</p> <p>Comprehension - 90% disadvantaged pupils made 6 or more steps of progress. 80% Expected attainment.</p> <p>Word Reading – 100% disadvantaged pupils made 6 or more steps of progress. 60% Expected attainment.</p> <p>Number - 100% disadvantaged pupils made 6 or more steps of progress.</p> <p>Numerical Patterns - 100% disadvantaged pupils made 6 or more steps of progress.</p> <p>Maths – 60% Expected attainment</p>
