

Uses of everyday materials

Year 2 - Summer 2.

By the end of the unit, I will be able to...

Distinguish between an object and the material from which it is made.

Describe the simple physical properties of a variety of everyday materials.

Identify and describe the suitability of a variety of everyday materials, including wood, metal, glass, brick, rock, paper and cardboard for particular uses.

Explain how the shapes of solid objects can be changed by squashing, bending, twisting and stretching.

Carry out an experiment to test the best material needed for a waterproof coat.
