

Dear Parents

One of the highlights this week was ribbon dancing in PE where some children demonstrated some excellent dance moves! The children have also learnt how to attach different parts when using the junk modelling and have started using their phonics to write a label to let everyone know what they have made. This gives writing a real purpose and motivates the children to incorporate it into their own play. We are also encouraging the children to label their Lego creations and any pictures that they draw.

Numberblocks has been very popular this week. The children are starting to incorporate many different mathematical concepts into their play when playing with the cubes without even realising.

We are looking forward to the start of December next week especially on Tuesday when there will be a surprise in the classroom.

We hope you have a lovely weekend

The EYFS team
