

Dear Parents and Carers,

We are excited to let you know that all KS1 children now have their own login details for NumBots — a fun and engaging online resource designed to help pupils develop confidence and fluency in basic number skills.

To get started, please download or open the NumBots app (available on tablets, phones, or through a web browser). Once opened:

1. Click on 'Pupils'.
2. Enter our school name or postcode.
3. Enter your child's username and password (these have been sent home with your child).

Children are expected to log on and complete the Story and Challenge games at least three times a week. Regular practice makes a big difference to their progress and confidence in maths.

Each week, the Top Three Players across KS1 will be awarded with a certificate in our Celebration Assembly. These awards will go to the pupils who show the biggest improvement in accuracy over the week.

Please find attached a Parent Guide that outlines what NumBots is, how to log on, and how the games work.

If you have any questions or need support with accessing the app, please do not hesitate to speak with your child's class teacher or me.

Thank you for your continued support,

Kind regards,

Mrs Morrissey
