

### 'Sticky' Knowledge

Africa is a continent.

It is made up of about 54 countries.

About half of Africa is covered in savannah.

A savannah is a large area of grassland with a few trees. It is hot all year round and does not often rain.

Giraffe

They have a very long neck to help them reach leaves in the trees.

Lion

Lions live in a group called a 'pride'.

Hippopotamus

Hippos leave the water at night to eat grass.

Rhinoceros

A group of rhinos is called a 'crash'.

Zebra

Zebras will travel for miles looking for grass and water

Crane

The grey crowned crane is the national bird of Uganda. Uganda is a country in Africa. The crane is on the Ugandan flag.
