

Launching early 2019, **Swan Radio** is a Community Radio that can be easily accessed through your mobile phone, i-pad or laptop. It will broadcast to Wraysbury, Datchet, Horton, Old Windsor, Colnbrook and Poyle.

How will it be run?

We are a not-for-profit organisation run by the community for the community.

Why do we need it?

We at Swan Radio have a passion to make sure that more residents benefit from the wonderful life in our villages, are more connected and feel proud of our community.

How will we decide what to broadcast?

We will be talking to a range of residents before launch to find out local needs.

What can I expect?

Ideas so far include local traffic news, upcoming events, live feeds from sports games, virtual "village walks", gardening tips, local history, health & wellbeing, pets corner, recognising achievements with a Swan badge (think Blue Peter!) and of course great music! We will also help with urgent requests, sharing information and be a central point during emergencies.

How can I get involved or help?

If you'd like to help run the station or do a broadcast you can join us for a small annual fee that will contribute to running costs. We are also looking for donations to equip the studio and get us started. To sign up, donate or just get more info, go to www.swan-radio.co.uk or call us on 0800 772 3612

Who are we?

We are a team of four volunteers, to be joined by representatives from each village.
