

Wraysbury Primary School is excited to announce a new venture in collaboration with:

activesport

Egham

We all know how important it is to live healthy, active lives, and we are looking at a new way to support our children to learn and enjoy active games. Helping children to understand the rules of games, turn taking and supporting friends and team mates are key to successful lunchtimes.

After the Easter break, ActiveSport Egham will be working with us at lunchtimes to provide fun and engaging activities for all of the children. All ActiveSport coaches are fully trained and hold current DBS safeguarding certificates. They will be working closely with school staff to ensure your child is safe whilst they are enjoying themselves at lunchtime. This is fully funded by the school.
