

# Year 5 Home Tasks

Check in to Doodlemaths daily and complete any tasks set.

(Not all in one go!)

Any problems, contact Doodlemaths directly.

Year 5 must continue working on their times tables knowledge, as these facts need to be rapidly recalled in order to help the children with other aspects of Math. Here are some fun, interactive games for the children to access: <https://www.topmarks.co.uk/maths-games/7-11-years/times-tables>

<https://www.timestables.co.uk/games/>

## Spelling, Punctuation and Grammar

Included is a list of the Year 3 and 4 statutory words to be revised at home. The children should be able to spell these accurately and understand their meaning. Please spend some time discussing some of these words and the correct context in which to use them. There are also aspects of grammar and punctuation that the children should be revising. These websites are full of content to help:

<https://www.topmarks.co.uk/english-games/7-11-years/spelling-and-grammar> - Grammar activities

<https://www.bbc.co.uk/bitesize/topics/zhrrd2p> - punctuation activities

## Science

This year so far, we have studied; forces, properties of materials, irreversible changes and the earth, sun and moon. We have sourced a website, which has some interactive games to help the children revise what they have previously learned.

<http://www.sciencekids.co.nz/gamesactivities.html>

Could you create a model solar system ? What could you use to make it? Take photos!

## **Bake a Cake!**

Follow a recipe and make something delicious to share with your family.

**Can you cook dinner or make lunch for your family too?**

## **Use an old sock or other materials to create a puppet.**

Write a playscript for your characters.

Can you put on a show for someone?

## **Get building!**

Build a Lego model, a tower of playing cards or something else.

Take some photos.

## Topic

This term the children have been learning all about Space in our themed topic 'To Infinity and Beyond'. This has also covered their VIPERS (reading) learning. We have been reading a novel called 'Cosmic' that follows Liam, (a 12-year-old boy), who accidentally journeys into space. To allow the children's knowledge to develop, they have been challenged with the task of creating their own chapter for the novel. Each day they will be expected to add in the following:

**Day 1** - Use punctuation (capital letters, full stops, checking the sentences make sense).

**Day 2** – Build on punctuation (commas, exclamation and question marks, apostrophes for contraction and parenthesis).

**Day 3** – Building sentence phrases (relative and subordinate clauses, subordinating conjunctions; I SAW A WABUB and FANBOYS, and fronted adverbials).

**Day 4** – Using descriptive language (adjectives, character development; thoughts, feelings and actions, building inference).

**Day 5** – Writing structure (linking paragraphs using adverbials).

The children will be using their Big Ideas Books to complete their writing.

To give the children a head start on their next topic 'Who Let the Gods Out?', please help them to research and record 5 facts about Greek gods, 5 facts about ancient Sparta and Athens and 5 facts about modern-day Greece.

## **Read, read, read!**

Where is your favourite place at home to read? Can you find lots of weird and wonderful places to read in your house? Take photos and see how creative you can be!
