## MULTI ACTIVITY

Our Multi Activity clubs are jam packed with a variety of stimulating activities for everyone to have fun and engage in. We have awesome cooking sessions, wacky science experiments and quirky arts & craft!

During Crazy Creatures week you can expect your children to be immersed in the outdoors as well as create some Crazy Creatures! Roald Dahl will support children to be engaged in the power of literature while growing their own 'magic bean' from Jack and the Bean Stalk. Wet and Wild is always a favourite but don't worry we have rainy day alternatives too! Every child is different, so there really is something for everyone!

We have a fantastic sports programme this summer with some weird and wonderful activities on offer with so many opportunities to grow individuality and confidence. All our age appropriate activities focus on developing our children whether that's cognitive fine gross motor skills or socialisation & confidence. From football to tri golf, frisbee to yoga, our sport programme offers something for everyone. Our staff are all enthusiastic and experienced sports coaches allowing your children to develop in a safe secure environment - Mind, Body & Soul
